

## The Cocoa Beach Sail & Power Squadron (CBSPS) will offer the:

**Engine Maintenance** comprises ten chapters that stress the diagnosis of modern systems, while also teaching the basics of engine layout and operation. Gasoline inboards, outboards, and diesel engines are taught in a way that reinforces the common aspects of how engines work.

Modern engines offer high reliability and good performance through the use of computerized systems for fuel delivery and engine timing. Most of these systems are “black boxes” that can no longer be serviced by weekend mechanics with ordinary tools. The EM course covers those repairs that the average boat owner can still perform, teaches how to diagnose problems that might be beyond your ability to fix, and how to share information with your mechanic so the right repairs are performed. The Engine Maintenance course also covers basic mechanical systems such as drive systems (propellers), steering systems, and engine controls.

**The class will** start Monday May 7, 2018 at at Cape Canaveral Hospital 701 W. Cocoa Beach Cswy, in the Medical Plaza Building Room C.  
(see **red arrow** on photo below)

Cost for USPS members is \$57.00 (\$72.00 for 2 persons sharing a book) and \$106.00 for non-members.

## Location of Medical Plaza Building at Canaveral Hospital

*We promote recreational boating safety through education and civic activities*
